Misconstruction.

The Halifax Record of this week says: "The Richmond Dispatch thinks it is too much to hope for the election to the presidency of so good a man as the Hon. Thomas F. Bayard! It is strange that the Dispatch, with its great enterprise and steady business prosperity, is so despondent in public matters. It gives up as lost all State rights and cannot even hope for the election of a good man to the presidency! Take heart, Mr. Dispatch. Hope survived even the fatal curiosity of Pandora."

The Record seems to misunderstand us. The Dispatch is as full of hope as of prosperity. But-

First, as to BAYARD: No southern man ought to be nominated for President. The candidate must be one whose war-record will bear the close inspection of the northern people. Mr. BAYARD never did anything that we know of to aid or assist the "rebellion," nor even sympathized with its objects. But he lives in a slaveholding State. His people sympathize with the South. His State voted for BRECKINRIDGE in 1860. Under these circumstances it would be unwise to nominate Mr. BAYARD. The Democrats in 1868 and again in 1872 had good prospects of success up to the time until the election took place constantly lost ground. To nominate BAYARD would be, in popular in November than in June. We are unpleasant to look at. Secondly, as to our despondency concern-

ing the rights of the States. Neither the editor of the Record nor any other sensible man can expect ever again to see amongst the tion and the rights of the States as they felt up to the year 1860. Now if from a condifew months' time to disregard entirely all the limitations of that instrument and to destroy all the rights of the States, how long would it take for the same passions to in the future? The most that we can hope for is the manifestation of some respect for State rights so long as nobody's angry pascome into play away will go all States' rights as the trial was over he would be attended again. If we of the South are silly to. enough to plead that the Constitunot authorize the Fedepeople of the North will doubtless let us have our way as to our own section; but doctrines of the southern Democrats-the burg Index. party almost always in power-before the war, the South would have been so strong the North would never have undertaken her be guilty of such consummate folly. When we maintain that the States

that will make us respected. . But we have another object. If we could persuade the northern people that they had foolishly lost all their own rights in enslaving us, they would be ready to see some justice in the cause for which the South other districts this morning. The Index-Appeal thinks as to the constithat "the section quoted requires, in the succeed there he must first harmonize the vide a uniform system at its first session, &c., but does not require its immediate introduction."

Thus the right of asylum, the noblest heritage of

Englishmen, would be lost forever. It appears to me that Americans, of all people in the world, should recognize the of the making of their nominations for justice of the decision as to Winslow. It is the Presidency; but from that time not a mere case of forgery which has been dealt with, but a grand principle of international law which has been vindicated. The free peoples of every country have cause to our opinion, to prepare for the Democrats rejoice that the British Government now, as just such a canvass as those of 1868 and 1872 ever, stands firm to the inalienable privilege in this respect. Bayand would be less of political sanctuary. It is fortunate indeed that the discussion of this question has arisen on matters involving no possibility of regret that such should be the case; but we armed conflict. When the calm judgment cannot shut our eyes to facts because they of Americans has been brought to bear on all the aspects of the case it will assuredly be generally conceded that the Dispatch is ST. D. KELLEY

Subject to decision of primary election. my 2-4t* TO MANY VOTERS OF CLAY WARD: Gentlemen.—In answer to your call to announce myself a candidate for re-election to the CITY COUNCIL from Clay Ward I can only say I have no aspirations for office of any kind, and had hoped some more efficient representative might be selected to represent you in my place at this election. If you are satisfied, and think proper to re-elect me (although personally quite an inconvenience in a business of the consumetre of th ness view, in the consumption of time). I will serve you and the interest of the city in what I conceive to be just and right to the best of my humble ability. Subject to the decision of the primary election. Respectfully; ROBERT W. OLIVER.
